

Board Names First Concrete Contractor

The Capitol City Golf Club Estates Board of Trustees on March 17, 2022 named **360 Concrete Design, LLC** as a *Verified Contractor* for work at Capitol City. The verification was based upon reference checks, cost considerations, bonding and first-hand inspections of previous completed projects. 360 is a local company owned by Anthony Coreghino and can be reached at **360-870-3175** for quotes. Based upon a recent survey of our community there are approximately 40 driveways that are in need of replacement. Homeowners are provided with this company only as a **non-exclusive** option for concrete work. Owners can obviously pick any company that they want for their work. It is hoped that the Board will also be providing other verified companies for Member consideration in the future.
